Stand: 01/2020

monta 840 is a self-adhesive tape with a silicone free paper carrier (60g/m²) made from ECF bleached pulp, from sustainable forestry. It is coated with a white natural rubber adhesive, made from predominantly renewable resources.

This paper tape is particularly well suited for printing, and offers a reliable, plastic free alternative to conventional adhesive tapes - for a mono-material packaging solution. Its low noise and smooth unwinding properties makes it ideal where ergonomic working conditions are a priority.
