Stand: 03/2020

monta pack 370 is a sturdy tape for the closure of medium heavy to heavy cartons, palletising and strapping. Because of the backside coating the adhesive tape is easy to unwind and ideal for the application with packaging machines. The tape is especially suitable for heavily strained packaging. Due to the thin film the tape is very flexible.

PROPERTIES

high tensile strength high immediate tack and adhesion on various surfaces easy to unwind
resistant to diluted acids and alkalis temperature resistant: after application at room
temperature from approx. -30°C up to +150°C short term suitable for recycling processes
